

S-290 Online Principles of Fire Behaviour (CIFFC)

Overview/Description

Principles of Fire Behaviour is an intermediate level fire behaviour course that builds on an individual's pre-existing fire behaviour knowledge. This course covers wildland fire behaviour knowledge and skills needed for effective and safe fire management. It is and is designed to help individuals anticipate fire behaviour based on a number of observable and measurable behaviours.

Target Audience

Forestry Division employees looking to advance in wildfire management courses.

Prerequisites

- Introductory knowledge of fire behaviour.

Registration

Forestry Division employees can register following instructions on the [Forestry Division Training SharePoint](#)..
