

Incident Command System I-200

Overview/Description

The Canadian Incident Command System introduces students to the principles associated with the Incident Command System. It covers organization, facilities, resource terminology and the common responsibilities or general instructions associated with incident or event assignments.

Target Audience

Individuals dealing with incidents on routine basis or supervising personnel under the Incident Command System. This course is also a prerequisite for people who wish to take the Incident Command System I-300.

Prerequisites

- Online Introduction to ICS I-100

Registration

Forestry Division employees register through your local training contact.

Individuals outside of Forestry Division, please contact your local or provincial training contact.
