

Incident Command System I-400

Overview/Description

The course emphasizes large-scale organization development, the roles and relationships of primary staff, and the planning, operational, logistical and fiscal considerations related to large and complex incident management. As well, this course describes the application of Area Command and the importance of interagency coordination on complex incidents and events.

Target Audience

Senior Type 1 Fire Management personnel, Forest Area Managers, Wildfire Operations Officers, Wildfire Technicians and Wildfire Prevention Officers.

Prerequisites

- Incident Command System 1-300 course.

Registration

Forestry Division employees register through your local training contact.

Individuals outside of Forestry Division, please contact your local or Provincial training contact.
