

Mapping Standards and Practice

Overview/Description

This online course was developed to teach basic mapping standards and practice. Learn how to use ATS (Alberta third system of survey), longitude and latitude to identify location. Determine distance & compass bearing from ATS to another map. Learn about the different types of maps used in identification / areas.

Target Audience

Forestry Division employees.

Prerequisites

There are no prerequisites.

Registration

Forestry Division employees can register following instructions on the [Forestry Division Training SharePoint](#).
