* Data from 2023

Alberta Snapshot

ATCO Structures & Logistics, a subsidiary of the Alberta-based ATCO Group, has a significant presence in Anchorage, Alaska. Their operations in Anchorage encompass a range of services tailored to the needs of various industries, particularly those operating in remote and challenging environments. ATCO specializes in the design, manufacturing, and leasing of modular buildings. These structures include mobile office trailers, workforce housing solutions, and other modular facilities that cater to industries such as oil and gas, mining, and construction. ATCO's Anchorage office provides these modular solutions to support both temporary and permanent operations in Alaska.

Through joint ventures like ARCTEC Alaska, ATCO offers operational and maintenance services for critical infrastructure. ARCTEC Alaska, a partnership between ATCO Structures & Logistics and ASRC Primus, is responsible for the operation and maintenance of 15 long-range radar sites that comprise the Alaska Radar System. This system directly supports the North American Aerospace Defense Command (NORAD), ensuring U.S. airspace security.
