Virginia exports to Alberta

Alberta Snapshot

Stantec, a global design and engineering firm headquartered in Edmonton, Alberta, has a significant presence in Virginia. With 12 offices in Arlington, Ashland, Charlottesville, Fairfax, Fredericksburg, Hampton, Richmond, Roanoke, Virginia, and Williamsburg, Stantec is contributing to the state's economy through job creation and sustainable infrastructure development.

The Bluefield team provides full environmental compliance services for assessment and remediation projects throughout the state and the mid-Atlantic region and has completed over 100 brownfield projects across the Virginias and Carolinas.

The Fairfax office recently developed water and sewer models that increased a local authority's efficiency and minimized service issues. While local residents may not be aware of Stantec's work behind the scenes, they experience the benefits every time they turn on their taps.
