

Alberta Municipal Water Wastewater Partnership (AMWWP)

Eligibility guidelines schematic

Legend

- Raw water lines
- Treated water lines
- Raw sewage lines
- Treated sewage (effluent) lines
- Non-eligible projects are within dashed lines

Notes:

1. Eligible projects are those that carry 100% of the flow.
2. Water line from the water treatment plant is eligible up to the first connecting point to the distribution system.
3. Wastewater line from the last connecting point of the collection system to a lift station is eligible for funding.
4. Water distribution systems and wastewater collection systems are not eligible for funding.
5. Refer to AMWWP website for a complete list of eligible projects and applicants (<https://www.alberta.ca/amwwp-apply>).
6. As each project is unique, applicants should consult the corresponding TEC regional office.
