Alberta Infrastructure

Contract Modernization Vendor Orientation

Wednesday, July 10, 2024, 10:00 AM - 12:00 PM

Alberta Infrastructure is hosting an online orientation session on July 10, 2024, to introduce our modernized construction contracts and procurement documents for capital projects.

These modernized contracts and procurement documents will help reduce red tape and costs for vendors. They will also define accountabilities, improve performance of capital project delivery, and enhance risk allocation. Overall, these modernizations will ensure the quality and standards for public infrastructure projects, and that projects are delivered on time and on budget as expected by Albertans.

To attend the session please register [here](#).

Registration is limited and is assigned on a first come, first served basis. Attendees will receive a registration confirmation email with their unique access link within 2 business days of registering. Once the registration limit is reached, new registrants will be placed on the waitlist.

- We recommend you do not share your confirmation email with others. Webex allows one login per unique access link.
- If you have registered for a session and are no longer able to attend, please cancel your registration. This will allow someone on the waitlist to attend in your place.

For registration assistance email pm.training@gov.ab.ca.

We want to hear from you.

Please submit any questions you may have related to the vendor orientation session or modernization of Infrastructure's contracts to askprocurement@gov.ab.ca or infras.trc@gov.ab.ca by **June 28**. Your questions will be reviewed and addressed either during the orientation session or posted online with the recorded session.

**Any questions related to a tender posted on Alberta Purchasing Connections must be directed to the contact on the posting.*

The information session will be recorded and posted on <https://www.alberta.ca/tendering-contracting-infrastructure-vendor-opportunities> a couple weeks post session date.
